Certifications

Programming Hero

Complete Web Development

I am a goal-oriented Junior Software Engineer specializing in React.js and front-end development. Skilled in HTML, CSS, JavaScript, dynamic routing, user authentication, Context API, and local storage, I build responsive and efficient web applications. Focused on understanding project requirements, I leverage modern React tools to create user-friendly interfaces. Committed to collaborative, iterative processes, I deliver impactful, high-quality solutions that align with both user needs and business goals.

Experience

May 2024 - July 2024

Frontend web Developer Intern

Battery Low Interactive | Dhaka

I develop dynamic and responsive web applications using React.js. I conduct user research and iterate designs to enhance the user experience, working closely with development teams to ensure design accuracy. My experience includes completing a frontend internship where I honed my skills in React.js, contributing to the creation of user-centered digital solutions.
